CE ISO 9001:2008
ISO 13485:2003

Group Med, an international biotech and medical company, is founded by a team of enterprising professionals with over twenty years of experience in In Vitro Diagnostics, Life sciences and Medical Device.

Our excellent customer care has been awarded with higher reputation and credibility among existing clients.

Group Med is in compliance with international IVD regulations, such as ISO 9001 /13485.

Most of our products are already CE marked. Its development strategy is "to establish quality brand, attract brand market".

Our main principles are cooperation, innovation and intergrowth with our customers.

OUTLINES OF GROUP MED SERVICES:

We work out forward-looking ideas and approaches concerning solutions within the field of Medical Consumables and In Vitro Diagnostics.

We guarantee fast turn-around and smooth logistics.

We guarantee high quality but still affordable products.

We are capable in high volume production.

We have developed successful marketing strategies.

We help creating protectable brand names for our partners.

We assist our customers for their complex local registrations.

We perform assemblies in a complete manner.

We stay in constant dialogue with our customers.
